Dear Sir Andrii,

Taking into consideration the situation in Ukraine related to the Russian aggression, the Rivne Regional Military Administration is entrusted by the Cabinet of Ministers of Ukraine to provide the population (both in Ukraine and abroad) with food and necessities, clothing and footwear, medicines, as well as the arrangement of places for the accommodation. With this purpose there has been set up a humanitarian hub in the Rivne region with a well-established mechanism for transporting humanitarian aid across the Ukrainian border.

We would be extremely grateful for your assistance in collecting and accepting donations to ensure the financial component of supporting the stable functioning of the humanitarian hub and the continuous supply of humanitarian goods from Germany and the EU, as well as for involving relevant public and charitable organizations, business and financial circles.

Thank you for your support!

For our freedom and yours!
